Business arising from previous meeting:

Splash-a-thon Update

- Close to \$29,000.00 has been counted. This is higher than last year, online option and social media we believe contributed this outcome.
- Concern raised regarding sponge throwing. Sponges once wet with dirt become heavy. This is causing a slight problem in regard to the younger children. This issue could be resolved by using only water squitters, NO sponges, for years K – 2. Another option is to have 2 lanes, one for sponges and one for squitters. This would give the kids an option as to what lane they want to take. It was expressed that the sponge throw is really the only remaining tradition of splash-a-thon and it would be a shame if it was taken away completely. A decision will need to be made in time for next years Splash-a-thon.
- We will introduce a new class prize for the 2nd runner up. A class Super Doper Party.
- Splash-a-thon assembly will held first week next term, 3rd May 2019.
